3. —

# Filter

Difficult to show proportionally small categories.

A lot of ~~overlap~~ overlap, hard to see, need a lot of filters.

## Categorist

World rankings

Comparison across AUS

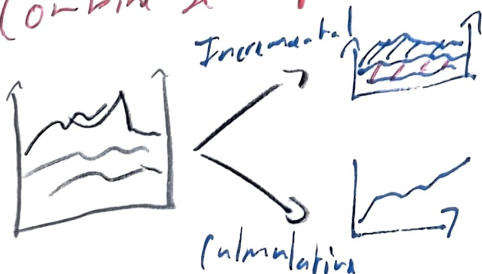

Comparison against types of installs

Compare against other renewables

## Combine & refine

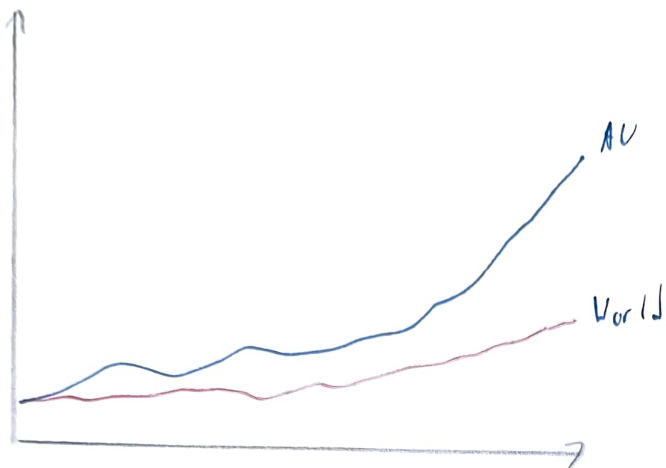

## Questions

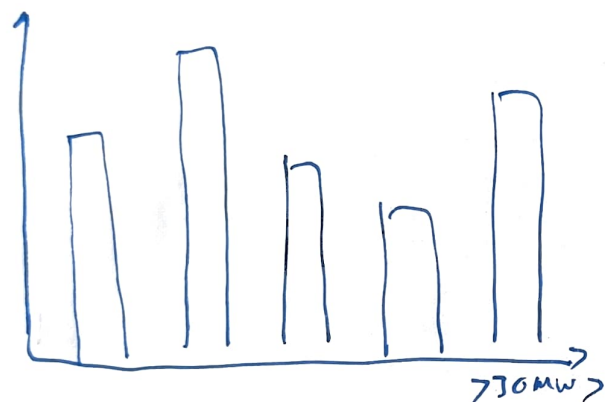

1. Doable in vega-like?
2. Categories sufficient to tell the story of solar in aus?
3. How should the maps be split? states?

# Lagout

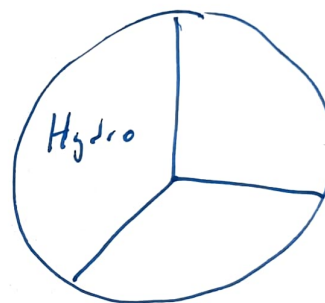

2

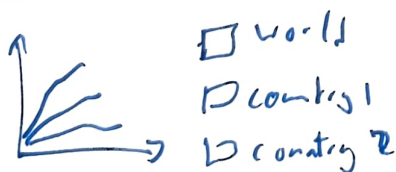

states

2017

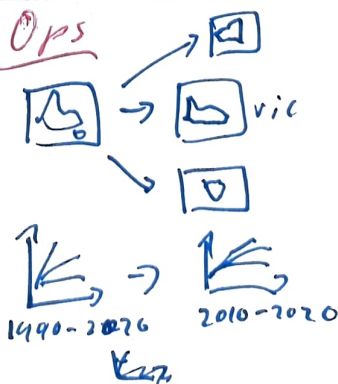

## Focus

- Be able to compare Australia with other countries ~~very~~ easily
- Also be able zoom into time periods to see smaller changes.

## Ops

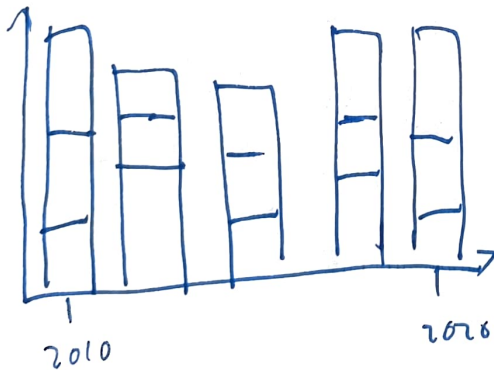

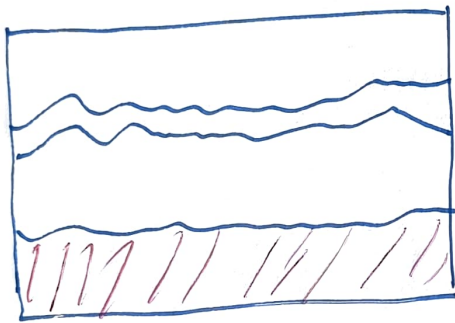

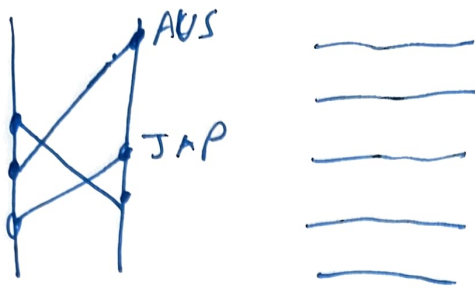

## Discussion

- The graphs are easily readable but not eye catching.
- Complex filtering likely difficult to implement.

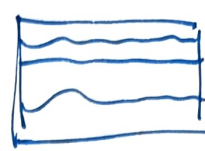

# Solar In Australia

(3)

## Focus

- Missing a proper focus

→ Stands out the most

Year filter to 200 into and see monthly change. Select on legend to highlight

## Ops

year

TYPE

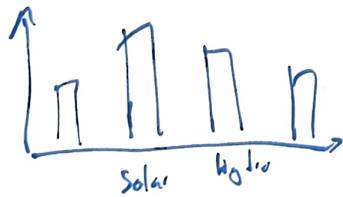

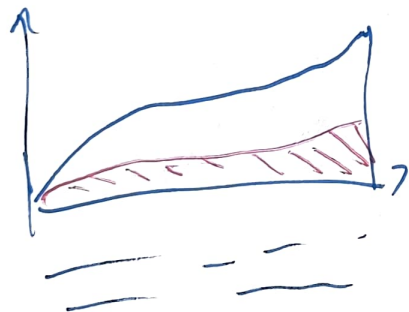

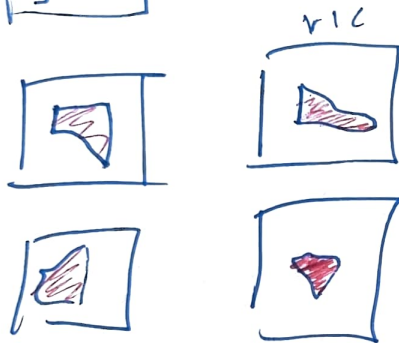

## Discuss

- Interaction is lacking
- Visually ~~not~~ uninteresting
- Lacking a focus

4

## Focus

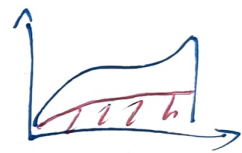

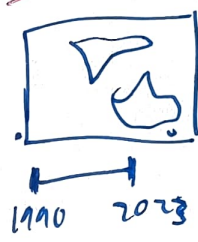

- ☐ Capacity
- ☐ Installs
- ☐

Time slider

Type: Residential

- Centre of the Visual
- Multiple filters
- Compare All the states

## Ops

select → highlight

## Discuss

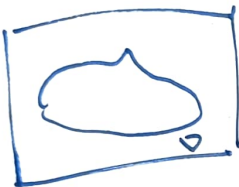

- Should the focus graph be split further instead of advanced filtering.
- Very little variation in idiom types.
- ↳ Research into more data
- Play more with story order.

# SOLAR AUSTRALIA

↳ select on legends to highlight

## Discuss

- Consider possibly breaking down some graphs
- ↳ filtering multiple graphs at the same time.
